Burns management course – 2023/24 application form

Fiona Stanley Hospital Burns Unit and DPMD are pleased to announce the continuation of the regional burns management courses in 2023/24 for WA Health staff.

This 6-7 hour course is relevant for doctors, nurses, paramedics, health workers and hospital response teams. This is a free, non-catered event.

Content includes:

- pre-transfer management and stabilisation
- minor burn managed locally with Burns Telehealth support
- surgical management of burns
- post-discharge rehabilitation and wound management at regional centres
- burns prevention and first aid
- airway and inhalation injury
- circulation and fluid resuscitation
- burn wound assessment, management and dressings
- chemical and electrical burns, major burns
- burns scarring and scar management
- pain and itch in burn patients
- psychosocial aspects of burn care.
